SAFETY ACCESSORIES

OBSTACLE SENSORS

Increase safety with a set of photocells. Stops a gate when an obstacle is detected eg. a child, pedestrian or car. You can also activate the gate auto-close function.

BATTERY POWERED

The wireless installation makes these ideal if it's decided to expand the gate's safety zone later.

COVER

Metal covers to protect sensors from damage and vandals.

MINI SENSORS

Smaller for discrete installs.

PILLY

Attractive anodized aluminium columns to mount sensors.
